

Disease

Familial cold autoinflammatory syndrome 2^{1, 2}

Gene

NLRP12

Inheritance	AD
Current Treatments	Corticosteroids, anakinra, rilonacept and canakinumab
Evidence for Treatment	expert opinion
Non-Molecular Testing Availability	no
Experimental / Investigational Therapies	https://clinicaltrials.gov/ct2/results?cond=Familial+Cold+Autoinflammatory+Syndrome&term=&cntry=&sta
