

Disease

Glucose-galactose malabsorption^{1, 2}

Gene

SLC5A1

Inheritance	AR
Current Treatments	Elimination of glucose and galactose from the diet. Use fructose-based formula.
Evidence for Treatment	expert opinion
Non-Molecular Testing Availability	no
Experimental / Investigational Therapies	https://clinicaltrials.gov/ct2/results?cond=Glucose-Galactose+Malabsorption&term=&cntry=&state=&city=&dist=
